Supplier Portal Registration

Register as a Sourcing Bidder

City of Boston's Bidders are suppliers which have access to view the City's Invitations for Bid, Requests for Proposal, and other procurement events. You must be registered in order to place a bid. In addition, registered suppliers can select categories of procurement which they want to be notified of. When a bid event is posted to the City of Boston Supplier Portal, Bidders who have selected that potential contract's relevant category of business may be notified of the event via email. Please use this registration process if you are looking to become a City of Boston supplier and need access to bidding functionality.

Vendor Registration Form

City of Boston's Vendors have an existing agreement (contract, awarded bid, etc) between their company and the City. Vendors have all of the same access to place bid offers on future events that Bidders do. They also are able to maintain company information on their Vendor profile and see details of their contractual agreements with City of Boston. Please use this registration process if you are already an active City of Boston vendor looking to register as a supplier portal user.
